

Sustainability Policy 2021

Sustainability Policy

As a company we accept the role of being a sustainable Airport and committed to doing all we can to minimise the operational impact on the environment wherever possible. To achieve our vision, we plan to grow our business so we can build economic growth through sustainable revenue, continue to support and educate our community and continue to be environmentally friendly and aware.

Our core goals below outline how we will accomplish this

Sustainability Objectives

SOCIAL

The Airport's Social Sustainability goal is to continue to educate and support the local community by:

- Maintaining and enhancing our relationships with local iwi
- Educating staff and terminal tenants about becoming sustainable
- Supporting local NPDC and community initiatives

ENVIRONMENTAL

The Airport's Environmental Sustainability goal is to continue to monitor and minimise our environmental obligations by:

- Committing to using environmentally conscious suppliers
- Committing to reduce our Scope 1 & 2 Carbon Emissions by 30% by 2023 from 2018 (base year)
- Continuing to develop our Wildlife Hazard Management Plan in order to work towards a predator free Taranaki
- Committing to reaching Airport Carbon Accreditation Level 2 by 2022. We will do this by reducing our electricity and fuel use, and improve our processes to reduce carbon emissions.

FINANCIAL

The Airport's Financial Sustainability goal is to build economic growth with revenue generated by:

- Striving to be financially self-sustaining post-COVID.
- Supporting local and regional businesses and partnerships
